The L. A. W.'s Rival.

MINNEAPOLIS, April 21.—The organization of the United Wheelmen of America, the new competitor of the League of American Wheelmen, will be perfected at a meeting of the temporary officers and charter members this evening. Since the initial meeting, correspondence has been had with prominent wheelmen in most of the western and southern states, and it is claimed that sufficient encouragement has been given to insure the promoters of the new movement going ahead with their plans.

The new organization favors Sunday racing and the abolition of the old professional and amateur lines. While it has adopted anational title and is urging elsewhere to take similar action, it will remain for the present a state organization, with the expectation that other western states will take such action as will result in the early establishment of a western circuit. The membership is open to any white wheelman sixteen years of age or upwards.

Cairo Expedition Reunion.

CHICAGO, April 21.—The survivors of the famous Cairo expedition, which rallied to the call of President Lincoln on April 31, 1861, held their reunion at the Sherman house this afternoon to celebrate the thirty-sixth anniversary of their departure for the seat of war. This historic group, which was under the command of General R. K. Swift, was the first body of troops to leave Chicago for the front. The grim reaper has claimed a large number of those that composed the column, and so few now remain that today's reunion or the one of next year, may be the last.

GREECE NEARLY LICKED.

The Little Kingdom's Soldiers Swept Back.

FIGHTING FANATICISM.

The Turks seem to be carrying everything before them—Good Generalship and Fanatical Soldiers Prove Too Much for the Greeks in Warfare.

LONDON, April 21.—Dispatches received here this morning suggest that the Turks have been successful on account of the experience of their commanding general and the fanaticism of the Turkish soldiers. The Turkish plan is to break the Greek center. The Greeks have successfully invaded Epirus. It is believed that Greece will not attempt to force the Dardanelles as the Turkish navy is only a collection of tubs, but the batteries above Dardanelles are most formidable and there are torpedoes enough hidden in the straits to blow up the navy of the world. The success of Turkey ends the fear of a European war. The situation of the Greeks is very grave, and the pivot of the present and future destiny of Greece lies around Larissa.

A dispatch from Athens says: "The Turkish fleet has left the Dardanelles. The Greek fleet has also sailed from Piræus under sealed orders and a meeting is expected."

Dispatch from Athens today, says all the police and gendarmes in this city have been hurriedly called to the front. The people in Athens are despondent at the outlook. The patches taken here as a meaning that the end is near.

Another dispatch from Salonica says that Larissa has fallen, but the report is not given full credence here. Another unconfirmed report is that a battle is now in progress is probably nearer correct.

A late special has been received from Athens which expresses the fear that should the Greeks suffer further reverses and the Turks should occupy Larissa a revolution will break out at Athens.

ROME, April 21.—Garibaldi, son of the Italian liberator, left for Athens today in response to a special invitation from Athens' court.

ATHENS, April 21.—The government has addressed a note to the foreign ministers in Greece, calling their attention to the fact that Greece had adhered to the declaration of the Berlin congress of 1856, and expressing a hope that foreign governments will respect the laws of non-interference.

Merritt, of New York, to be third assistant post-master general.

His remarks were received with prolonged cheer.

THE ELECTION CONTENT.

An Injunction Has Been Served on the City Council.

Joseph Magoffin et al went before Judge Buckler yesterday evening and sued out a writ of injunction restraining the mayor and city council from opening the ballot boxes and settling the contested election cases without first going before the district court and showing why the injunction should not be made final. The injunction is as follows:

The state of Texas, to Robert F. Campbell, mayor of the city of El Paso, Texas, and James Clifford, John O'Keefe, J. F. Kachler, J. T. Whitmore, Frank Del Buono, J. J. Stewart, W. M. Caldwell and E. C. Roberts, who compose the city council of the city of El Paso, Texas:

Whereas, said petition has been duly presented to the Hon. C. N. Buckler, judge of the 34th judicial district of the state of Texas, and has been duly considered by him; in obedience to the order and fiat of the said judge of the district court of El Paso county, Texas, judge of the 34th judicial district of Texas, you are hereby commanded to open the returns of the election hereinbefore mentioned and canvass the same and declare the result of said election, or to appear before the district court of El Paso county, Texas, on the 22nd day of April 1897, at 9 o'clock a. m., and show cause why you should not or have not done so.

And you are further notified to appear at said time and place and show cause why a writ of injunction should not issue restraining you from opening the ballot boxes in which the ballots cast at said election are now preserved or from in any manner handling the ballots in the same.

Given under my official signature and seal, at El Paso, Texas, this 20th day of April, 1897.

J. A. ESCAÑEDA,
Clerk District Court, El Paso County, Texas.

The attorneys for the contestants are preparing their papers and the authority on the subject and will appear in the district court tomorrow morning and argue their side of the question. If they show good reasons the injunction will be dissolved and the city council will proceed to settle the contest, the same as it is always settled in legislative bodies—state or national. Many good democrats are wondering why the "machine" is fighting the opening of the ballot boxes so hard and the republicans have gained strength in the city by the strong fight that is being made against the developments of facts about the election. The republicans do not care who is elected, and if the majority of legal ballots cast show that Judge Magoffin is elected then no other obstacle will be put in the way of his taking the office.

Magdalena Calderon.

Magdalena Calderon is still in jail over the river, and it is impossible to find out what the authorities propose to do with her. The municipal and state authorities no longer care about it, and in the federal court, the clerks shrug their shoulders and say the law does not allow them to say anything.

The American consul, however, has written to the American minister at the City of Mexico stating the facts in the case, and saying that it is the current understanding that the arrest was made at the instance of the Mexican consul in this city, and that there are no just grounds for the detention. Mr. Calderon was brought before the federal judge recently and confronted with a letter signed by some one of the same name, and which had been written by the accused, would have directly implicated him. But Mr. Calderon denied the handwriting was his, and the name was written by him, and the examination failed in every way to incriminate the prisoner. Minister Ransom is expected to make an immediate demand upon the Mexican government for Mr. Calderon's release.

Corralitos Notes.

The Constructio company is lying three miles of track a day, something unheard of before in the republic, and which will attract attention in the railway world generally.

The bridge men are now putting in cribbing 65 miles out, two miles beyond the track layers, and 8 miles from Lake Guzman. This fine body of water is now about in sight. It is 3 miles wide and 30 long, and all the construction hands propose to have a swim on reaching it. There is to be a station at the lake, and 200 yards from the shore is a large warm spring. Then there are great flocks of duck and quail there. When this interesting fact was given a HERALD reporter, he was urged for good reasons to let Judge Kemp know it, else the judge would immediately swarm down there all by himself and do nothing but shoot for the next ninety days and forget all about his legal business. Work continues to be pushed in the Corralitos yards, and three trains loaded with material are sent out daily to the front, and the promises of the management are being carried out.

DR. HUNTER IS BEATEN.

Withdraws From the Race for U. S. Senator.

HESCORES THE BOLTERS.

Convinced That Further Efforts are Futile Hunter Withdraws From the Kentucky Senatorship Race—Deboe or Holt Will be the Republican Caucus Nominee.

FRANKFORT, Ky., April 21.—The joint assembly today gave Hunter 55 votes and Blackburn 41 and then adjourned. Dr. Hunter is beaten and has withdrawn from the race for United States senator. Chairman Jones issued call at noon for a meeting at which a new candidate will be selected. The fight for the nomination lies between Judge Holt and State Senator Deboe. Dr. Hunter's friends will support Deboe, but Holt looks like a winner. When Hunter tapers back to the caucus tonight his nomination, he will score the bolters who prevented his success. Hunter's friends admit that Governor Bradley was not behind the bribery charges.

Wants to Be Up Head.

NEW YORK, April 21.—The pretensions of Sir Julian Phaulconote to take a star part in the Grant monument dedication ceremony has caused considerable trouble. When the invitations were given to the diplomatic corps at Washington Sir Julian promptly announced that unless the foreign representatives of ambassadorial rank, with himself at their head, received places of honor at the head of Mrs. Grant and family, he could not attend. Sir Julian on frequent occasions has caused annoyance in official circles by demanding to be considered before any one else. The committee of arrangements are desirous to let the whole diplomatic corps go on a strike if it wants to, believing the dedication can struggle along without it.

Tales of the Flood.

NATCHEZ, Miss., April 21.—A terrible tale of disaster has reached Natchez from Bayou Vidal, La. It is feared that the death list will be very large.

Labor's Memorial.

WASHINGTON, April 21.—The memorial prepared by the executive council of the American Federation of Labor, was presented to the president's cabinet and congress today. After reciting that a speedy, bold legislation for the relief of humiliating poverty was promised during the last campaign, the memorial says the federation, representing nearly one million wage earners, demands the speedy enactment of these measures.

Amendment to the federal eight hour law; remodeling the immigration laws; reform in the national banking system, and liberal appropriations for government public works, rivers and harbors.

"We assure you millions of people are now in no disposition to be trifled with, and are becoming desperate with deep mutterings of discontent. They desire to realize some of the prosperity so freely promised. Three millions of well-to-do workers are idle. Shall they will work in vain?"
